

Leo Jasper V. Ladica

Davao City, Region 11 | 0991-220-5981 | leojasperladica0@gmail.com

Portfolio: <https://jasperladica.vercel.app>

Objective

Information Technology graduate with hands-on experience in IT support, system administration, and network troubleshooting. Skilled in hardware/software troubleshooting, Active Directory management, Microsoft environments, and IT asset documentation. Experienced in maintaining reliable IT operations through technical support, system monitoring, and problem-solving.

Experience

Sta. Lucia Mall Davao| IT Staff

July 2025 - Present

- Monitor and maintain network infrastructure to ensure system stability, connectivity, and reliable operations.
- Maintained and monitored ICT infrastructure, including network devices, computers, and peripheral equipment, ensuring system reliability and operational efficiency.
- Configure, deploy, troubleshoot, and maintain desktop computers, laptops, printers, and other IT devices.
- Delivered technical support by diagnosing and resolving hardware, software, connectivity, and user access issues to minimize operational disruptions.
- Administer and manage Active Directory, including user account creation, password resets, account permissions, and user/group management.
- Managed IT asset inventory and documentation for company devices, ensuring accurate tracking and maintenance records.

MinNa Lproc R&D Laborator | Intern

January 2025 - March 2025

- Improved and fixed code issues in the system to enhance functionality and reduce errors.
- Redesigned system UI components, resulting in a more intuitive user interface.
- Enhanced user workflow and improved system navigation experience.
- Helped test the system and add new features.
